

Niles Glasgow

U. S. Department of Agriculture
Natural Resources Conservation Service

State Conservationist

South Carolina

EDUCATION: B.S. – Agricultural Economics, Mississippi State University
Graduate work - Public Administration, University of Colorado

Previous positions include:

- Soil Conservationist, Hartselle, AL
- Economist, Auburn, AL
- Economist, Denver, CO
- River Basin Watershed Planning Staff Leader, Phoenix, AZ
- Multi-state Staff Leader, Phoenix, AZ
- Assistant State Conservationist, Water Resources, Phoenix, AZ
- Watershed Liaison Northeast & Southeast, Washington, DC
- Deputy State Conservationist, Columbia, SC
- State Conservationist, Gainesville, FL

Glasgow became the SC NRCS State Conservationist January 7th, 2008, and previously served as the Florida NRCS State Conservationist for just over 18 years.

He has a B.S. in Ag. Economics from Mississippi State University, and completed graduate work in Public Administration at the University of Colorado.

During his 39-year career with the agency, he has worked in the Southeast, West, and National Headquarters, and has specialized knowledge in addressing conservation needs through partnerships that utilize the watershed approach. While in Florida, Mr. Glasgow was instrumental in addressing significant natural resources in the Everglades, as well as water quality protection efforts in the Suwannee River and Okeechobee Basins.

He has also held positions including Soil Conservationist, Economist, Watershed Planning Staff Leader, Assistant State Conservationists, Deputy State Conservationist, and Watershed Liaison.

He currently chairs the NRCS National Plant Materials Advisory Committee, and serves on the National Grazing Lands Steering Committee. He is also a member of the Soil and Water Conservation Society, the Organization of Professional Employees of USDA, and Honorary Member of the Perdido Bay Tribe of Southeastern Lower Muscogee Creek Indians, and in his spare time, enjoys tennis and reading.
